  - Website: tarekkhattab.com/ar

- **Front-End Developer at National Quality (from jul 2025 – now)**

Personal Projects

E-commerce Website
Built a multi-page responsive online store with React, featuring product listings, category filters, shopping cart functionality, and basic client-side routing. **Project Link**

Fullstack E-commerce App
Built a modern E-commerce application using Next.js (App Router) and TypeScript. Users can browse products, view details, add items to cart, and complete orders. Admins can manage products and orders through a secure dashboard. The app uses MongoDB for data storage and Cloudinary for image hosting. Authentication and server-side rendering enhance performance and security. **Project Link**
